

# MALAMA - AINA

## FOR THE KEIKI

*For the benefit of our children and future generations:* come celebrate the beauty of our 'aina and learn about community efforts to protect our fragile ecosystems and cultural resources.

Talk story with our elected officials.

Learn about the fate of environmental legislation in 2017 and how we can do better in the 2018 legislative session. Also learn what we can do to protect our national monuments and marine reserves against Trump's plans to eliminate and reduce these special places. Share your own efforts to care for the 'aina.
